WHAT TO EXPECT

Academic Support & Project Help

Need a hand brainstorming ideas, researching, or gathering supplies for a big school project? Our team is here to help every student succeed and feel proud of their work.

Mentorship & Exposure to New Possibilities

Through connections with college students, DPS students meet mentors who tutor them academically and introduce them to new pathways, fields of study, and life goals they may never have imagined.

Family Learning & Advocacy

Parents participate in sessions designed to help them navigate Durham Public Schools, learning how to read report cards, understand academic milestones, advocate for their student's needs, and access resources that support their child's success.

Play, Connection & Community

Each session includes time to play, move, and connect with friends in a safe, supportive environment. Our volunteers ensure every child feels included because learning and thriving go hand in hand.
